Astronauts sleep in beds that are attached to the walls. There are lots of cool machines inside. The control board helps them. The food comes in special bags. They use straws to drink so the liquid won't float away. They also have special ways to wash up. Even though it's hard at times, they get to see the beautiful Earth from space. Last holiday, I went to a beautiful city, Xi'an, with my family. It was my first time there, and the beautiful sights there took my breath away.

We did many interesting things. In the morning, I saw some ancient buildings. In the afternoon, we tasted delicious food, rode bikes around the city, and we also took many photos. It was great fun, and I learned a lot about Chinese history.

##### My best friend

Friends play an important role in our life and study.

My best friend is Tom. We are of the same age. He is tall and strong with short hair. Tom is more outgoing than me, so he makes friends easily. He has a great habit of getting up early. And he works as hard as me at school. Also, he runs faster than other students in our class.

I don't really care if friends are similar or different, just like Tom and me. We're always ready to help each other by lending a hand. He is truly the friend who reaches for my hand and touches my heart.

### A wonderful trip

I'm glad to share a wonderful trip with you. Last Sunday morning, I visited the Chengdu Research Base of Giant Panda Breeding with my classmates. We love the pandas so much.

The giant panda is one of the most popular animals in the world. They can live up to 30 years. Adult pandas spend twelve to sixteen hours a day eating about ten to fifteen kilos of bamboo. I think the most surprising fact is that when pandas walk, they spread bamboo seeds. This helps new bamboo grow.

Unluckily, pandas are in danger. We must protect pandas and save their homes.

In the future ,I will live in a smart

house by the sea. In the morning, the sea wakes me up, and I can enjoy the beautiful sight from my window. I'll have a robot helper to help me with housework, leaving me more time to do things I love, like reading and painting. After that, I'll have a delicious 3D-printed breakfast. Then, I can work or study at home with the help of technology. In the evening, I'll take a walk on the beach, feeling the soft sand under my feet.

I look forward to such a future life because it can bring me peace and joy, and I can fully enjoy my life. Also, I can have more free time to develop my hobbies.

To achieve such a future life, I will study hard, especially in science and technology. I'll learn skills like programming. Besides, I'll keep a healthy lifestyle and save money. I believe that as long as I keep working hard, my dream will finally come true.

Dear Mr Green,

I'm writing to invite you to our school's Campus Culture and Art Festival, which will be held on May 30th in the school hall. We all know your deep love for music and your excellent skills in guitar, so we sincerely hope you can join us as a special guest.

During the festival, there will be a student band show and a talent competition. We wonder if you could perform a guitar solo or serve as a judge for the singing competition. Your professional advice will help students improve their art skills, and your performance will surely light up the stage.

Your participation will make the

festival more meaningful and encourage us to explore our artistic potential. We believe your presence will create unforgettable memories for everyone.

Looking forward to your reply!

Yours sincerely,

Li Hua

### My Holiday

Last vacation, I did lots of interesting things and I had a great time.

First, I finished my homework on

time. Besides, I wanted to learn some new skills. So I watched online videos and learned how to cook simple dishes for my parents. And my parents felt moved and happy! Second, I read some interesting English books to improve my reading skills. In my free time, I didn't forget to exercise. I went running in the park every morning with my friends. At the end of the vacation, my family and I took a trip to Hainan. We went to a beach and played beach volleyball happily there. Also, we ate lots of fresh seafood there. The seafood tasted delicious, and I enjoyed them a lot.

I think it was a great holiday, and I learned a lot from these experiences.

#### My Colourful Life

My life is full of happy and meaningful moments from my family and my dream job.

In my family, I often do chores with my parents, such as sweeping the floor, watering plants and so on. We have so much fun together. Besides, we often have a face-to-face talk. This makes us understand each other better.

In the future, I want to be a fashion designer when I grow up. I'm really interested in drawing now. I'm going to take art lessons and practice my drawing skills every day. At the same time, it's also important to learn other school subjects well.

Every day is colourful in my life! I love it so much.
